# Buggy Cars Rating

Bug Tickets in Jira

| | |
|---|---|
| **Prepared by** | Aqsa Shoukat |
| **Tool** | Jira |
| **Website tested** | buggy.justtestit.org (Buggy Cars Rating) |
| **Tickets** | 7 tickets, BCBT-1 to BCBT-7, all in To Do |
| **Date** | September 2026 |

I logged the 7 bugs from my Buggy Cars Rating testing as tickets in Jira. This page lists the tickets. The screenshots and the full details are in the Buggy Cars Rating Bug Report.

## 1. Ticket list

| Jira key | Title | Report ID | Severity | Priority | Status |
|---|---|---|---|---|---|
| BCBT-1 | Abusive and offensive words are allowed in the comment box | BUG-005 | **Critical** | High | To Do |
| BCBT-2 | The comment box is missing on the car detail page | BUG-007 | **High** | High | To Do |
| BCBT-3 | The Register button is hidden when the mobile keyboard is open | BUG-002 | **High** | Medium | To Do |
| BCBT-4 | A technical error message shows when the username already exists | BUG-003 | **Medium** | Medium | To Do |
| BCBT-5 | The Registration form is still on the screen after a successful login | BUG-004 | **Medium** | Medium | To Do |
| BCBT-6 | The first field on the Registration form is labeled Login | BUG-001 | **Medium** | Low | To Do |
| BCBT-7 | A single character is accepted as a comment | BUG-006 | **Low** | Low | To Do |

Severity shows how bad the problem is for the user. Priority shows how soon I would fix it. They are not the same, for example the misleading field label is a Medium defect but a Low priority.

## 2. Ticket details

| BCBT-1 Abusive and offensive words are allowed in the comment box | |
|---|---|
| **Report ID** | BUG-005 |
| **Severity** | Critical |
| **Priority** | High |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Log in<br>2. Open any car page<br>3. Type an offensive comment<br>4. Tap Submit |
| **Expected** | The system blocks the comment and shows a warning. |
| **Actual** | The abusive comment was accepted and shown on the page. There is no filter. |

| BCBT-2 The comment box is missing on the car detail page | |
|---|---|
| **Report ID** | BUG-007 |
| **Severity** | High |
| **Priority** | High |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Log in<br>2. Open any car model page<br>3. Scroll to the bottom of the page |
| **Expected** | A comment box and a Submit button show for a logged-in user. |
| **Actual** | There is no comment box on the page, so the user cannot add a new comment. |

| BCBT-3 The Register button is hidden when the mobile keyboard is open | |
|---|---|
| **Report ID** | BUG-002 |
| **Severity** | High |
| **Priority** | Medium |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Open the Register page on a phone<br>2. Fill in all the fields<br>3. Look for the Register button while the keyboard is open |
| **Expected** | The Register button stays visible, or the page scrolls up on its own. |
| **Actual** | The keyboard covers the Register button completely. The user cannot finish registration without closing the keyboard. |

| BCBT-4 A technical error message shows when the username already exists | |
|---|---|
| **Report ID** | BUG-003 |
| **Severity** | Medium |
| **Priority** | Medium |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Register with the username aqsa440<br>2. Try to register again with the same username<br>3. Look at the error message |
| **Expected** | A simple message such as: This username is already taken. Please choose another one. |
| **Actual** | A raw technical error shows: UsernameExistsException: User already exists. |

| BCBT-5 The Registration form is still on the screen after a successful login | |
|---|---|
| **Report ID** | BUG-004 |
| **Severity** | Medium |
| **Priority** | Medium |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Register a new user<br>2. Log in with the same details<br>3. Look at the page |
| **Expected** | The user goes to the home page after login. |
| **Actual** | The Registration form is still shown after the login worked. |

| BCBT-6 The first field on the Registration form is labeled Login | |
|---|---|
| **Report ID** | BUG-001 |
| **Severity** | Medium |
| **Priority** | Low |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Open the website<br>2. Tap Register<br>3. Look at the first input field |
| **Expected** | The field is labeled Username. |
| **Actual** | The field is labeled Login. This is confusing because it looks like the Login button. |

| BCBT-7 A single character is accepted as a comment | |
|---|---|
| **Report ID** | BUG-006 |
| **Severity** | Low |
| **Priority** | Low |
| **Status** | To Do |
| **Environment** | Android phone, mobile browser |
| **Steps** | 1. Log in<br>2. Open any car page<br>3. Type one character: c<br>4. Tap Submit |
| **Expected** | There is a minimum length for comments. I used 5 characters as my own guess. |
| **Actual** | The single character c was accepted and posted as a normal comment. |

These tickets come from manual testing of a public practice website. September 2026.
