ParaBank

Manual Testing Report

Manual testing of a demo online banking website

Prepared by	Aqsa Shoukat
Test date	6 October 2026
Platform	Chrome on Android (mobile browser)
Website	parabank.parasoft.com
Scope	7 modules and 48 test cases
Result	28 passed, 18 failed, 1 observation and 1 not verified
Evidence	Screenshots taken during testing

This report shows what I tested, what I saw on the screen and the problems I found. It is based on my test session and the screenshots I saved.

1. What I tested

ParaBank is a demo banking website that I used to practice manual testing. I tested seven areas: registration, opening an account, transferring funds, paying a bill, finding transactions, updating contact info and requesting a loan.

In each area I first tried the normal flow. Then I tried wrong or unusual values like empty fields, letters in amount fields, zero, negative amounts and amounts bigger than the balance. I noted the result and saved screenshots as proof. The phone clock is visible in the screenshots, so you can see when each step was done.

What was included

- Registration and opening Checking accounts
- Transfers between accounts with zero, negative, text, empty, same-account and over-balance amounts
- Bill payments with valid and invalid inputs
- Transaction search by ID, amount, date and date range
- Contact info updates with empty fields and wrong Zip Code or Phone values
- Loan requests with different loan amounts and down payments

What I did not cover

I did not test performance, security, accessibility, other browsers or devices, or APIs. I also did not fully test decimal values or very large values in all the money fields. I did test a $5,000 transfer, but bigger amounts still need testing.

2. How I tested

I explored each page, filled in the form and checked the message or result that came up. For money actions I also checked the account balances before and after when I could. Then I compared what happened with what I expected. I did not have a requirements document, so the expected results are my own judgement.

Environment: ParaBank demo website, Chrome on Android, manual testing. **Test date:** 6 October 2026.

3. Results at a glance

Module	Cases	Pass	Fail	Other
Registration	1	1	0	0
Open New Account	4	2	2	0
Transfer Funds	8	2	6	0
Bill Pay	8	4	4	0
Find Transactions	11	9	0	2
Update Contact Info	10	7	3	0
Request Loan	6	3	3	0
Total	**48**	**28**	**18**	**2**

The two cases under Other are one observation (TC-FT-10, a reversed date range) and one case I could not verify (TC-FT-09, a valid date range). I did not count them as a pass or a fail.

Main things I noticed

- Negative values were accepted in Transfer Funds and Bill Pay. In the negative transfer test the money moved the opposite way.
- A $5,000 transfer was accepted even though the source account had only $365.50. The balance then showed -$4,634.50.
- Some wrong inputs gave a general internal error page instead of a message that says what is wrong.
- The contact form accepted letters in Zip Code and Phone. It also saved the profile when Phone was empty.
- The normal flows I tried mostly worked. This includes registration, valid transfers, a bill payment and the transaction searches.

4. Defects found

ID	Issue I saw	Severity	Test case
BUG-01	Opening an account sometimes shows an internal error, even though the account is created.	High	TC-ACC-01, 03
BUG-02	Transfer Funds accepts an amount of $0.	Medium	TC-TRF-03
BUG-03	A negative transfer is accepted and the money moves the opposite way.	Critical	TC-TRF-04
BUG-04	A text or empty amount in Transfer Funds shows an internal error instead of a message on the field.	Medium	TC-TRF-05, 06
BUG-05	A transfer bigger than the balance is accepted and the balance goes negative.	Critical	TC-TRF-07
BUG-06	Transfer Funds lets me pick the same account as From and To.	Low	TC-TRF-08
BUG-07	Bill Pay showed an internal error for a text amount once, but showed a proper message another time.	Medium	TC-BP-04
BUG-08	Bill Pay accepts a payment of $0.	Medium	TC-BP-06
BUG-09	Bill Pay shows an internal error when no From account is selected.	Medium	TC-BP-07
BUG-10	A negative bill payment is accepted and the account balance goes up.	Critical	TC-BP-08
BUG-11	Update Contact Info accepts letters in Zip Code.	Medium	TC-UP-09
BUG-12	Update Contact Info accepts letters in Phone.	Medium	TC-UP-10
BUG-13	Update Contact Info saves the profile when Phone is empty.	Low	TC-UP-08
BUG-14	Request Loan shows an internal error when a required amount is empty or zero.	Medium	TC-LN-04 to 06

Severity levels are my own judgement based on what I saw during testing.

5. Other observations

These items are not in the defect list but they may be worth checking.

5.1 Search with no matches: The results table stayed empty and there was no "No transactions found" message.

5.2 Reversed date range: When the From date was later than the To date the table was empty. The page did not say the range was wrong.

5.3 Valid date range: I entered a valid date range but did not save the result screen. So I marked this case as Not verified.

5.4 Empty account dropdown on Find Transactions: The "Select an account" dropdown was empty once (3:31). I only saved a screenshot of the empty dropdown and did not note what happened on submit. It looks like the empty From account dropdown on Bill Pay (BUG-09).

5.5 Transfer form defaults: Both the From and To dropdowns showed the same account by default. This could cause a same-account transfer by mistake.

5.6 Loan request: When the down payment was bigger than the loan, the app showed an insufficient funds message. I listed this as an observation because I had no requirements that say what should happen.

6. Test case index

All 48 test cases are listed here. The steps and screenshots for each one are in section 8.

ID	Test case	Result	Defect
Registration			
TC-REG-01	Register a new user	**Pass**	None
Open New Account			
TC-ACC-01	Open a Checking account funded from an existing account	**Fail**	BUG-01
TC-ACC-02	Open a second Checking account (retry)	**Pass**	None
TC-ACC-03	Repeat Open New Account several times	**Fail**	BUG-01
TC-ACC-04	Open an account from a different source account	**Pass**	None
Transfer Funds			
TC-TRF-01	Valid transfer between two accounts	**Pass**	None
TC-TRF-02	Valid transfer of $20, repeated	**Pass**	None
TC-TRF-03	Transfer an amount of $0	**Fail**	BUG-02
TC-TRF-04	Transfer a negative amount	**Fail**	BUG-03
TC-TRF-05	Transfer with a non-numeric amount	**Fail**	BUG-04
TC-TRF-06	Transfer with an empty amount	**Fail**	BUG-04
TC-TRF-07	Transfer more than the account balance	**Fail**	BUG-05
TC-TRF-08	Transfer to the same account	**Fail**	BUG-06
Bill Pay			
TC-BP-01	Valid bill payment	**Pass**	None
TC-BP-02	Submit with all fields empty	**Pass**	None
TC-BP-03	Account number and Verify Account number do not match	**Pass**	None
TC-BP-04	Non-numeric amount	**Fail**	BUG-07
TC-BP-05	Only the amount is empty	**Pass**	None

ID	Test case	Result	Defect
TC-BP-06	Payment of $0	Fail	BUG-08
TC-BP-07	Submit without selecting a From account	Fail	BUG-09
TC-BP-08	Negative payment amount	Fail	BUG-10
Find Transactions			
TC-FT-01	Find by Transaction ID, non-numeric value	Pass	None
TC-FT-02	Find by Transaction ID that does not exist	Pass	None
TC-FT-03	Find by a valid Transaction ID	Pass	None
TC-FT-04	Find by a valid Amount	Pass	None
TC-FT-05	Find by Amount, non-numeric value	Pass	None
TC-FT-06	Find by Amount on an account with no transactions	Pass	None
TC-FT-07	Find by Date, valid date	Pass	None
TC-FT-08	Find by Date, invalid date	Pass	None
TC-FT-09	Find by Date Range, valid range	Not verified	None
TC-FT-10	Find by Date Range, From date later than To date	Observation	None
TC-FT-11	Find by Date Range, both fields empty	Pass	None
Update Contact Info			
TC-UP-01	Update Contact Info with valid data	Pass	None
TC-UP-02	First Name empty	Pass	None
TC-UP-03	Last Name empty	Pass	None
TC-UP-04	Address empty	Pass	None
TC-UP-05	City empty	Pass	None
TC-UP-06	State empty	Pass	None
TC-UP-07	Zip Code empty	Pass	None
TC-UP-08	Phone empty	Fail	BUG-13
TC-UP-09	Zip Code with letters	Fail	BUG-11
TC-UP-10	Phone with letters	Fail	BUG-12
Request Loan			
TC-LN-01	Down payment above the balance	Pass	None
TC-LN-02	Down payment larger than the loan	Pass	None
TC-LN-03	Loan above the available funds	Pass	None
TC-LN-04	Down Payment empty	Fail	BUG-14
TC-LN-05	Zero values	Fail	BUG-14
TC-LN-06	Loan Amount empty	Fail	BUG-14

7. Conclusion and what I would test next

The main problem I found is weak input checking, mostly in the actions that move money. Negative amounts and transfers bigger than the balance were accepted. Some empty or wrong inputs also gave an internal error page. The three issues that matter most for money are BUG-03, BUG-05 and BUG-10, so they should be fixed first.

If I continued testing I would:

- Test the failed cases again after any fixes and capture the missing result for TC-FT-09
- Try decimal amounts, long decimals and very large amounts in the transfer, bill payment and loan forms
- Try very long text and special characters in the contact and bill payment fields
- Check what happens with the browser Back and Refresh buttons after submitting a form
- Repeat the tests to see if the internal errors that come and go can be reproduced

This was a practice exercise on a demo site. It is not a real banking system.

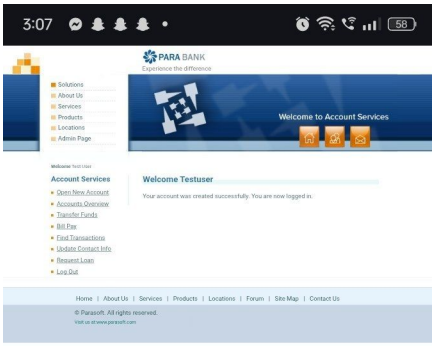

8. Detailed test cases with evidence

Every test case lists the steps, test data, expected result, actual result and the screenshots I used as proof. The time in brackets is the phone clock shown in the screenshot.

8.1 Registration

TC-REG-01 Register a new user	PASS
Steps	1. Open the ParaBank registration page 2. Fill in the required details and submit
Test data	Valid user details (fake data)
Expected	The user is created and logged in.
Actual	The account was created and I was logged in.

Evidence

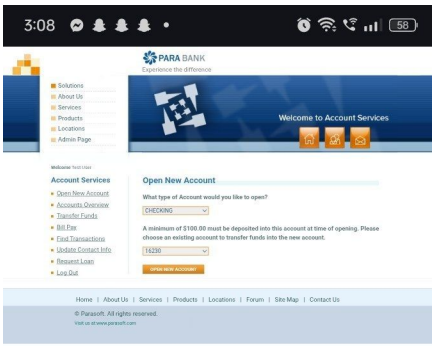

Registration success (3:07)

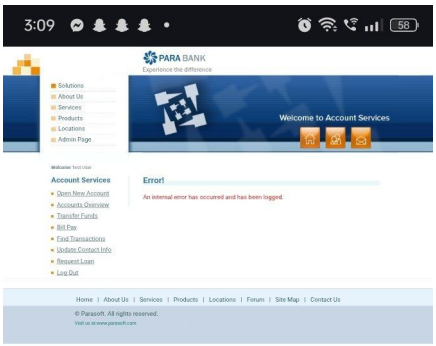

8.2 Open New Account

TC-ACC-01 Open a Checking account funded from an existing account	FAIL
Steps	1. Go to Open New Account 2. Select CHECKING and source account 16230 ($100 minimum deposit) 3. Click Open New Account 4. Check Accounts Overview
Test data	Type: CHECKING; source: 16230
Expected	A success page with the new account number. $100 moves to the new account.
Actual	The page showed "An internal error has occurred and has been logged" (3:09). But Accounts Overview at 3:11 shows the new account 17451 with $100.00 and account 16230 down to $415.50. So the account was created even though I saw an error.
Defect	BUG-01 - **High**

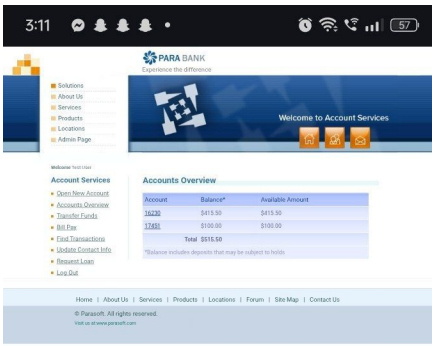

Evidence

Form (3:08)

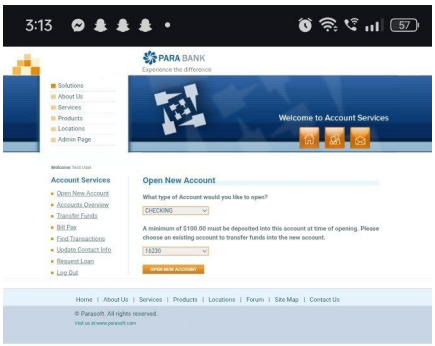

Error page (3:09)

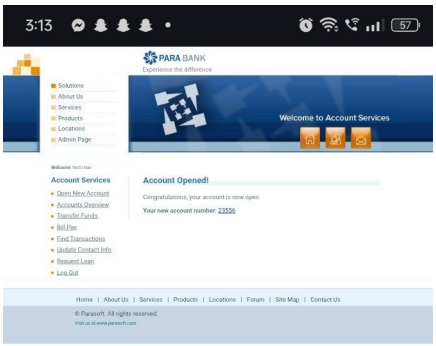

Overview (3:11)

TC-ACC-02 Open a second Checking account (retry)	PASS
Steps	1. Go to Open New Account 2. Select CHECKING and source account 16230 3. Click Open New Account 4. Check Accounts Overview
Test data	Type: CHECKING; source: 16230
Expected	The account is opened and $100 is taken from the source account.
Actual	The page showed "Account Opened!" with the new account 23556. Overview at 3:18 shows 16230 = $315.50, 17451 = $100.00 and 23556 = $100.00. The total is $515.50, the same as before.

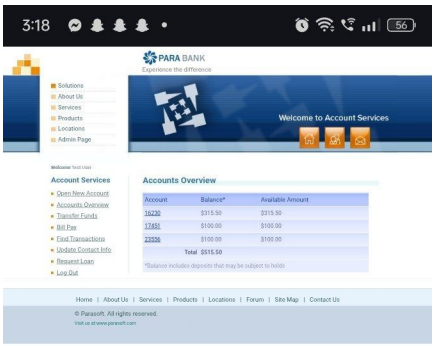

Evidence

Form (3:13)

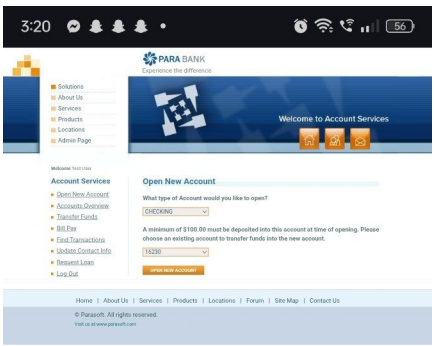

Account opened (3:13)

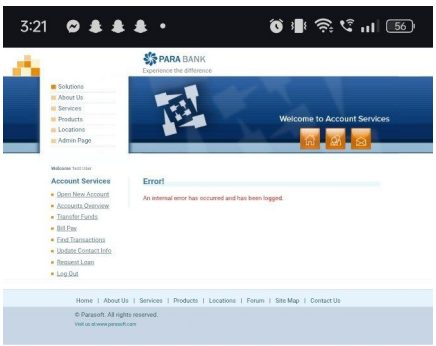

Overview (3:18)

TC-ACC-03 Repeat Open New Account several times	FAIL
Steps	1. Go to Open New Account 2. Select CHECKING and a source account, then click Open New Account 3. Repeat this
Test data	Type: CHECKING
Expected	Each try works, or a clear message shows if it cannot.
Actual	The internal error came again at 3:21 and 3:22. So the error does not happen every time.
Defect	BUG-01 - **High**

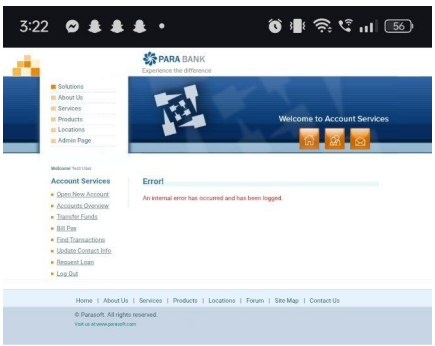

Evidence

Form (3:20)

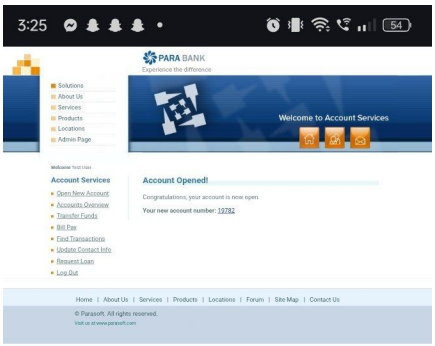

Error (3:21)

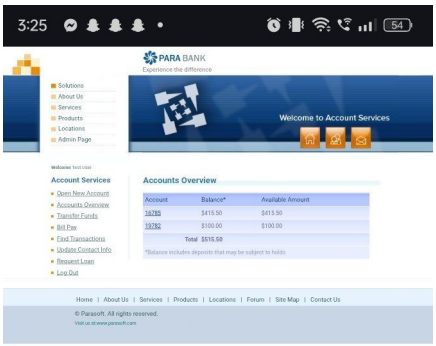

Error (3:22)

TC-ACC-04 Open an account from a different source account	PASS
Steps	1. Go to Open New Account 2. Select CHECKING and source 16785 3. Click Open New Account 4. Check Accounts Overview
Test data	Type: CHECKING; source: 16785
Expected	The account is opened and the balances update correctly.
Actual	The page showed "Account Opened!" with account 19782. Overview at 3:25 shows 16785 = $415.50 and 19782 = $100.00. The total is $515.50.

Evidence

Account opened (3:25)

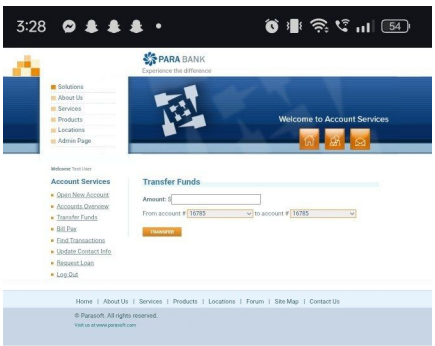

Overview (3:25)

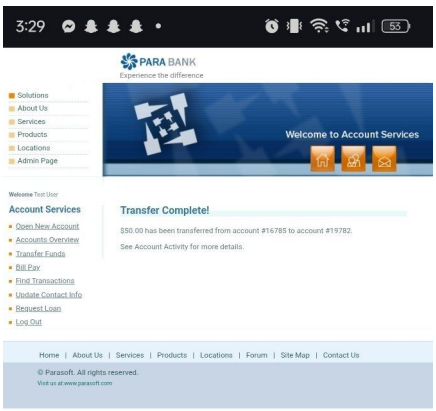

8.3 Transfer Funds

TC-TRF-01 Valid transfer between two accounts	PASS
Steps	1. Go to Transfer Funds 2. Enter $50, From 16785, To 19782 3. Click Transfer 4. Check Accounts Overview
Test data	Amount: 50; from: 16785; to: 19782
Expected	The transfer completes and the balances update. The total stays the same.
Actual	"Transfer Complete! $50.00 has been transferred from account #16785 to account #19782." Overview at 3:29 shows 16785 = $365.50 and 19782 = $150.00. The total is $515.50. On the form (3:28) the From and To dropdowns both showed 16785 by default.

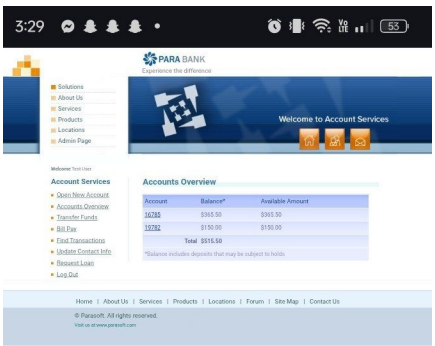

Evidence

Form, default values (3:28)

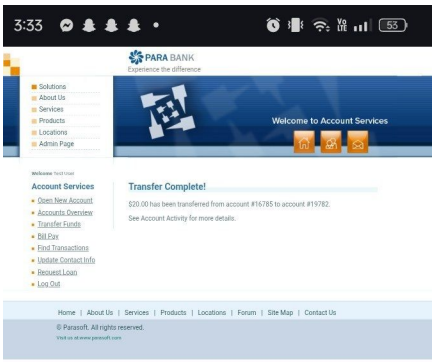

Result (3:29)

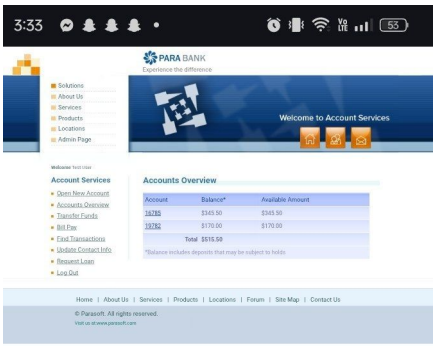

Overview (3:29)

TC-TRF-02 Valid transfer of $20, repeated	PASS
Steps	1. Transfer $20 from 16785 to 19782 2. Do the same transfer again 3. Check Accounts Overview after each transfer
Test data	Amount: 20
Expected	The balances update correctly each time. The total stays the same.
Actual	Transfer Complete showed both times. After the first one the overview showed $345.50 and $170.00. After the second one (3:35) it showed $325.50 and $190.00. The total stayed $515.50.

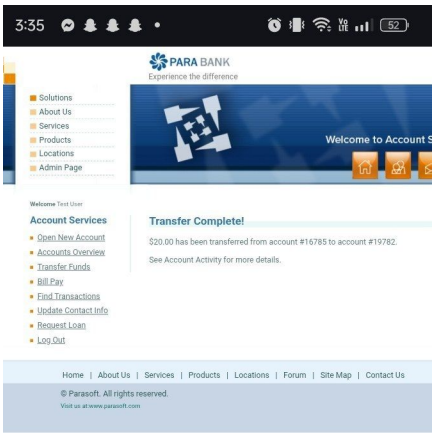

Evidence

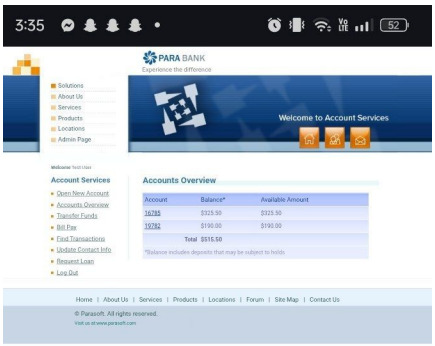

First transfer (3:33)

Overview (3:33)

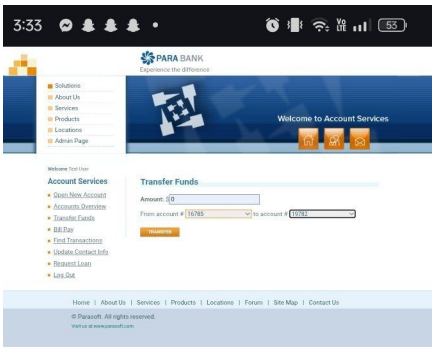

Second transfer (3:35)

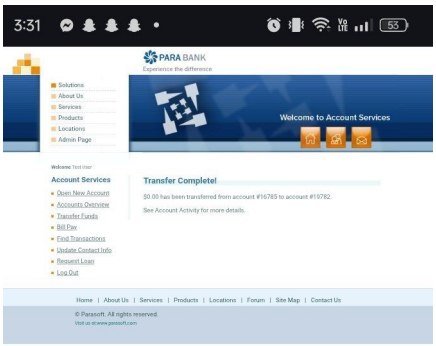

Overview (3:35)

TC-TRF-03 Transfer an amount of $0	FAIL
Steps	1. Go to Transfer Funds 2. Enter 0, From 16785, To 19782 3. Click Transfer
Test data	Amount: 0
Expected	A validation message like "Amount must be greater than zero".
Actual	"Transfer Complete! $0.00 has been transferred from account #16785 to account #19782." The balances did not change (3:32).
Defect	BUG-02 - **Medium**

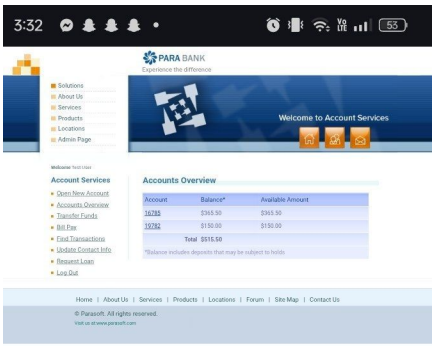

Evidence

Form, amount 0 (3:33)

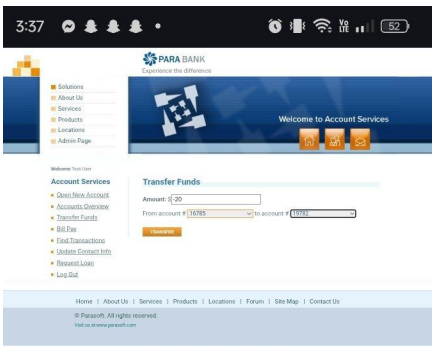

Result (3:31)

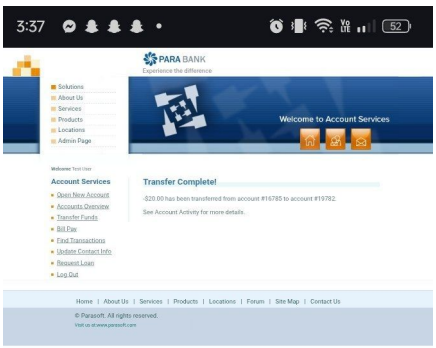

Overview (3:32)

TC-TRF-04 Transfer a negative amount	FAIL
Steps	1. Go to Transfer Funds 2. Enter -20, From 16785, To 19782 3. Click Transfer (I did this twice) 4. Check Accounts Overview
Test data	Amount: -20
Expected	The transfer is rejected with a validation message.
Actual	The page showed "Transfer Complete! -$20.00 has been transferred from account #16785 to account #19782" at 3:37 and 3:38. The balances changed from $325.50 and $190.00 to $365.50 and $150.00. So money moved from the destination account back to the source account.
Defect	BUG-03 - **Critical**

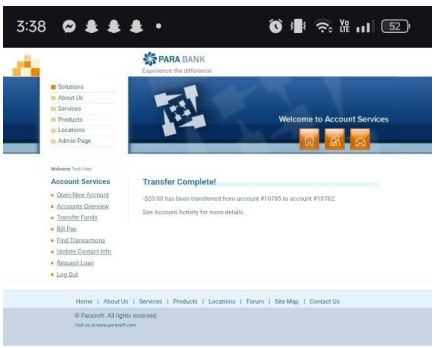

Evidence

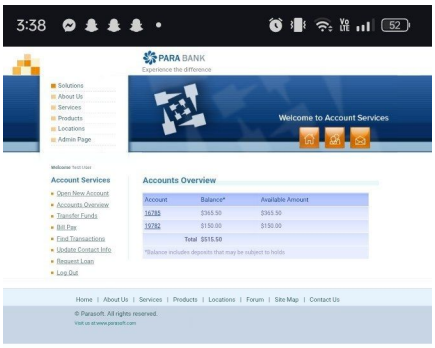

Form, -20 (3:37)

Result (3:37)

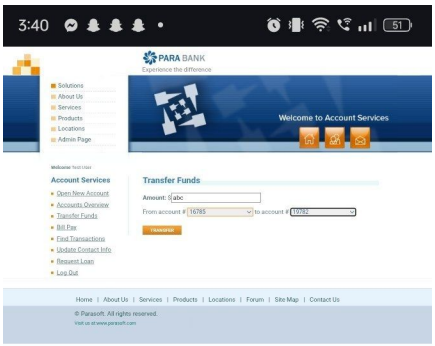

Result (3:38)

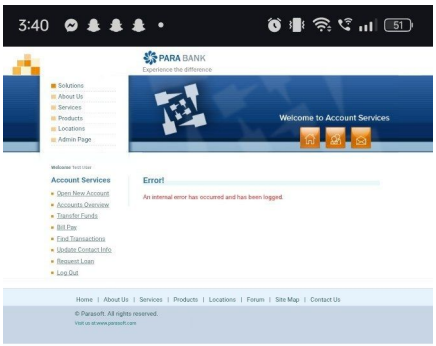

Overview (3:38)

TC-TRF-05 Transfer with a non-numeric amount	FAIL
Steps	1. Go to Transfer Funds 2. Type "abc" in Amount 3. Click Transfer
Test data	Amount: abc
Expected	A validation message asking for a number.
Actual	"Error! An internal error has occurred and has been logged." (3:40)
Defect	BUG-04 - **Medium**

Evidence

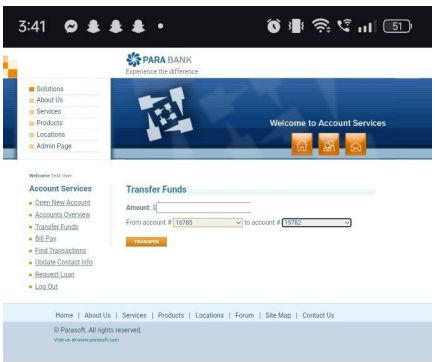

Form, abc (3:40)

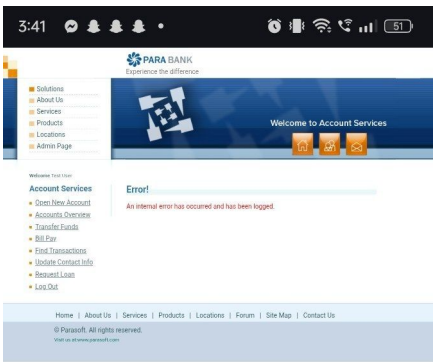

Error page (3:40)

TC-TRF-06 Transfer with an empty amount	FAIL
Steps	1. Go to Transfer Funds 2. Leave Amount empty 3. Click Transfer
Test data	Amount: (empty)
Expected	A validation message like "Amount is required".
Actual	"Error! An internal error has occurred and has been logged." (3:41)
Defect	BUG-04 - **Medium**

Evidence

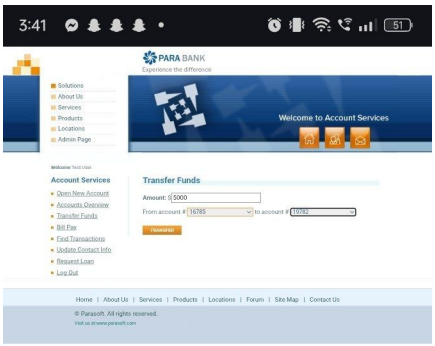

Form, empty (3:41)

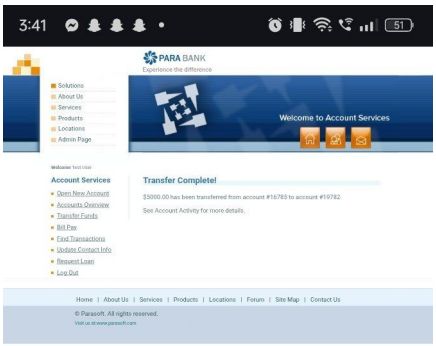

Error page (3:41)

TC-TRF-07 Transfer more than the account balance	FAIL
Steps	1. Go to Transfer Funds 2. Enter 5000 from account 16785 (balance $365.50) to 19782 3. Click Transfer 4. Check Accounts Overview
Test data	Amount: 5000
Expected	The transfer is blocked because of insufficient funds.
Actual	"Transfer Complete! $5000.00 has been transferred..." Overview at 3:41 shows 16785 = -$4634.50 (available $0.00) and 19782 = $5150.00. The source account went negative.
Defect	BUG-05 - **Critical**

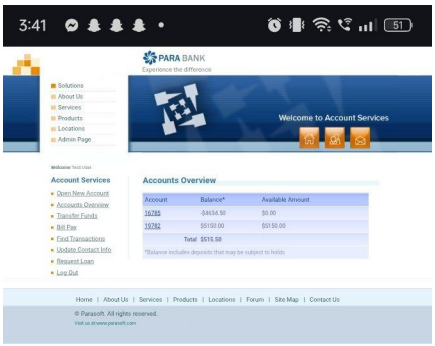

Evidence

Form, 5000 (3:41)

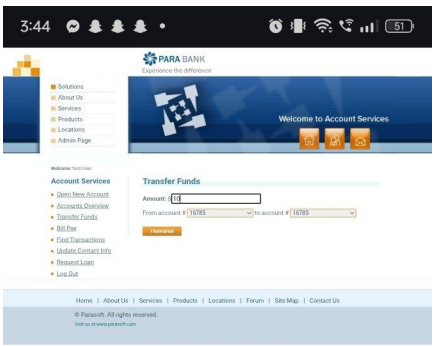

Result (3:41)

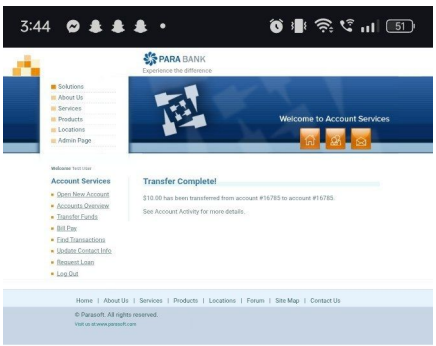

Overview (3:41)

TC-TRF-08 Transfer to the same account	FAIL
Steps	1. Go to Transfer Funds 2. Select 16785 in both From and To 3. Enter 10 and click Transfer 4. Check Accounts Overview
Test data	Amount: 10; from and to: 16785
Expected	The transfer is blocked with a message.
Actual	"Transfer Complete! $10.00 has been transferred from account #16785 to account #16785." The balances did not change (3:44).
Defect	BUG-06 - **Low**

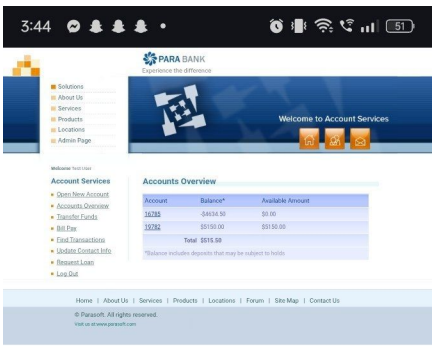

Evidence

Form (3:44)

Result (3:44)

Overview (3:44)

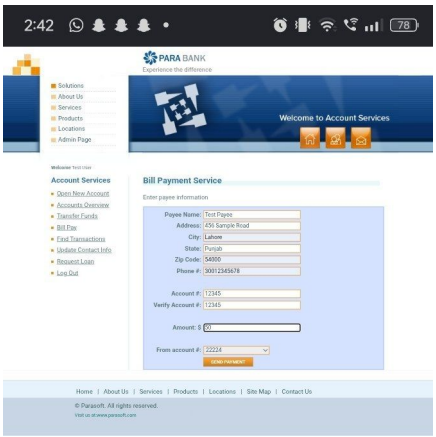

8.4 Bill Pay

TC-BP-01 Valid bill payment	PASS
Steps	1. Open Bill Pay 2. Fill in all payee details, amount $50, From account 22224 3. Click Send Payment 4. Check Accounts Overview
Test data	Payee: Test Payee; account #: 12345; amount: 50
Expected	The payment completes and the amount is taken from the account.
Actual	"Bill Payment Complete" showed $50.00 paid to Test Payee from 22224. Overview at 2:44 shows $465.50.

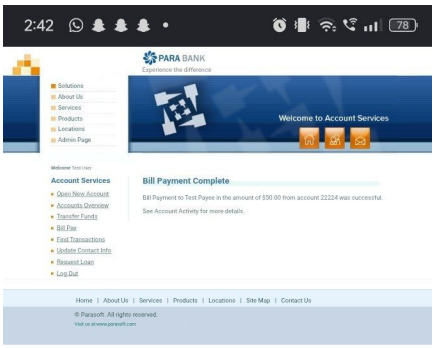

Evidence

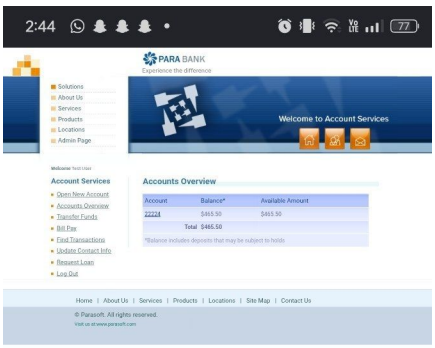

Empty form (2:41)

Filled form (2:42)

Result (2:42)

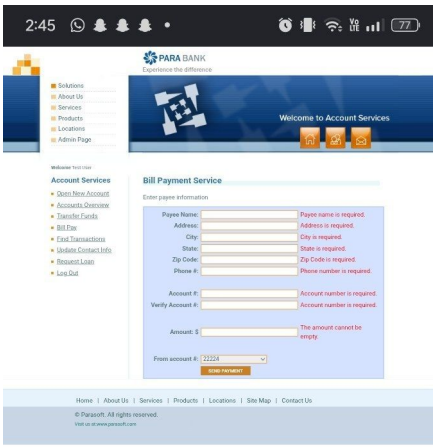

Overview (2:44)

TC-BP-02 Submit with all fields empty	PASS
Steps	1. Open Bill Pay 2. Leave all fields empty 3. Click Send Payment
Test data	All fields empty
Expected	Every required field shows a validation message.
Actual	Messages showed for every field. For example "Payee name is required", "Account number is required" and "The amount cannot be empty".

Evidence

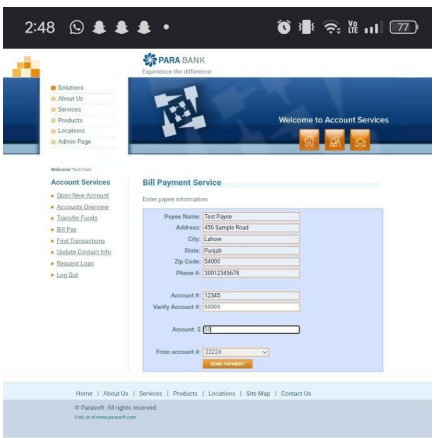

Empty form (2:45)

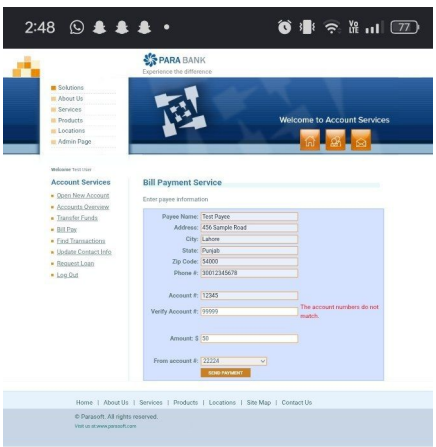

Validation messages (2:45)

TC-BP-03 Account number and Verify Account number do not match	PASS
Steps	1. Enter 12345 in Account # and 99999 in Verify Account # 2. Enter amount 50 3. Click Send Payment
Test data	Account #: 12345; verify: 99999
Expected	The payment is blocked with a mismatch message.
Actual	"The account numbers do not match." showed and no payment was made.

Evidence

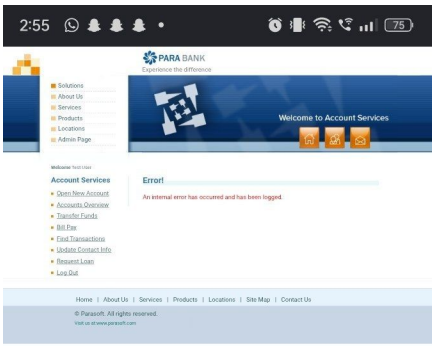

Entered data (2:48)

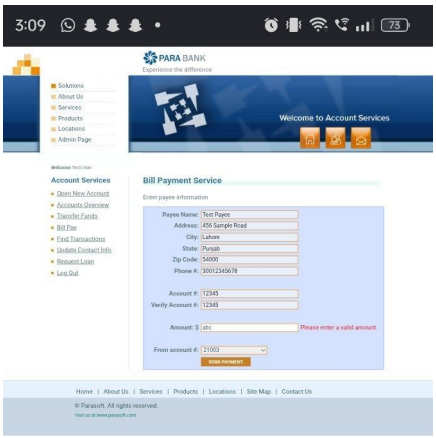

Validation message (2:48)

TC-BP-04 Non-numeric amount	FAIL
Steps	1. Open Bill Pay and fill in valid payee details 2. Enter text in Amount 3. Click Send Payment
Test data	Amount: text
Expected	A validation message "Please enter a valid amount".
Actual	The first try (2:55) ended with "An internal error has occurred and has been logged". A later try with "abc" (3:09) correctly showed "Please enter a valid amount." So the behavior is not consistent.
Defect	BUG-07 - **Medium**

Evidence

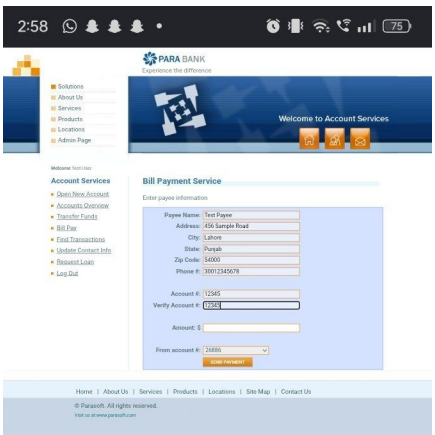

Error page (2:55)

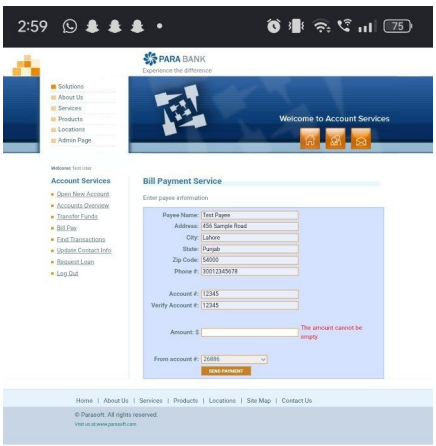

Validation message (3:09)

TC-BP-05 Only the amount is empty	PASS
Steps	1. Fill in all payee details and leave Amount empty 2. Click Send Payment
Test data	Amount: (empty)
Expected	Only the amount field shows a validation message.
Actual	"The amount cannot be empty." showed next to Amount only.

Evidence

Form (2:58)

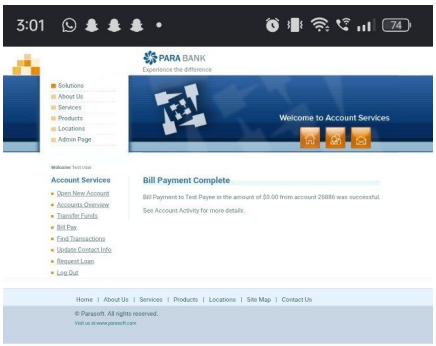

Validation message (2:59)

TC-BP-06 Payment of $0	FAIL
Steps	1. Fill in all details and enter 0 in Amount 2. Click Send Payment
Test data	Amount: 0
Expected	The payment is rejected.
Actual	"Bill Payment to Test Payee in the amount of $0.00 from account 26886 was successful."
Defect	BUG-08 - **Medium**

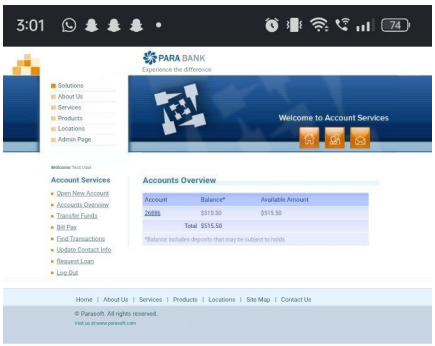

Evidence

Form, amount 0 (3:01)

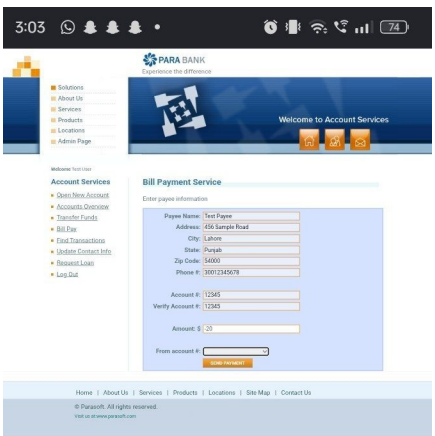

Result (3:01)

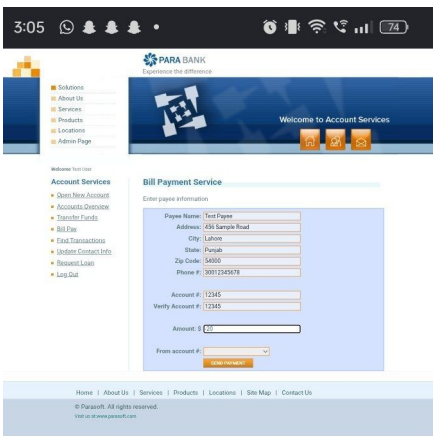

Overview (3:01)

TC-BP-07 Submit without selecting a From account	FAIL
Steps	1. Fill in all details with Amount -20 2. Leave the From account dropdown empty 3. Click Send Payment
Test data	From account: (empty)
Expected	The dropdown lists my accounts, or a message asks me to select one.
Actual	The From account dropdown was empty (3:03 and 3:05). When I submitted, the page showed "An internal error has occurred and has been logged" (3:06).
Defect	BUG-09 - **Medium**

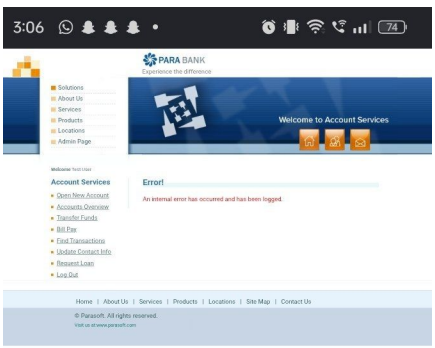

Evidence

Empty dropdown (3:03)

Form (3:05)

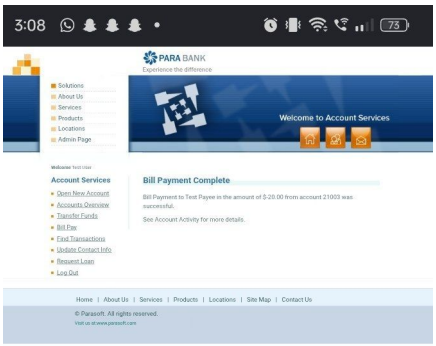

Error page (3:06)

TC-BP-08 Negative payment amount	FAIL
Steps	1. Fill in all details, Amount -20, From account 21003 2. Click Send Payment 3. Check Accounts Overview
Test data	Amount: -20; from: 21003
Expected	The payment is rejected.
Actual	"Bill Payment to Test Payee in the amount of $-20.00 from account 21003 was successful." Overview at 3:08 shows $535.50 for 21003. That is $20.00 more than the $515.50 starting balance on the other test accounts.
Defect	BUG-10 - **Critical**

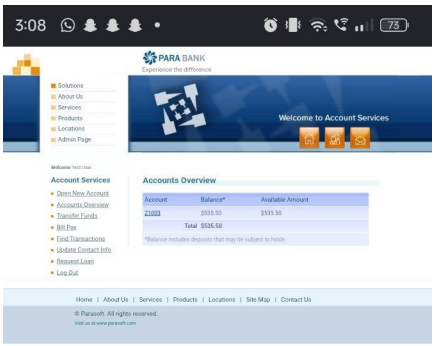

Evidence

Form, -20 (3:08)

Result (3:08)

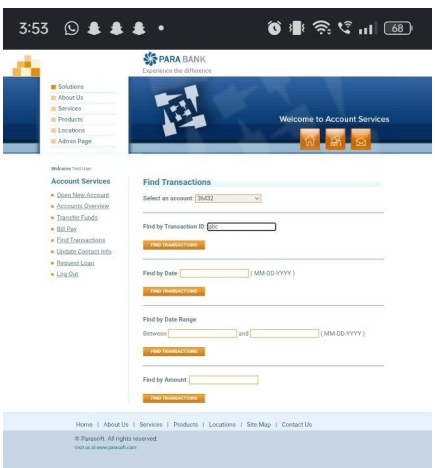

Overview (3:08)

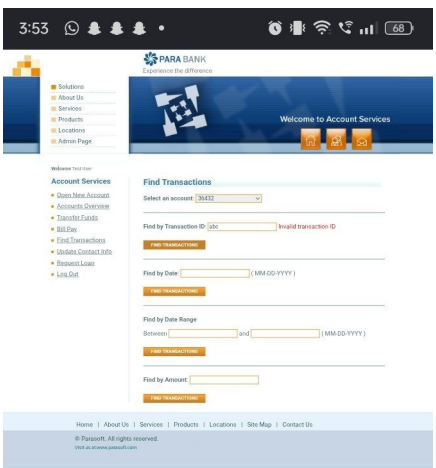

8.5 Find Transactions

TC-FT-01 Find by Transaction ID, non-numeric value	PASS
Steps	1. Select account 36432 2. Type "abc" under Find by Transaction ID 3. Click Find Transactions
Test data	Transaction ID: abc
Expected	A validation message.
Actual	"Invalid transaction ID" showed next to the field.

Evidence

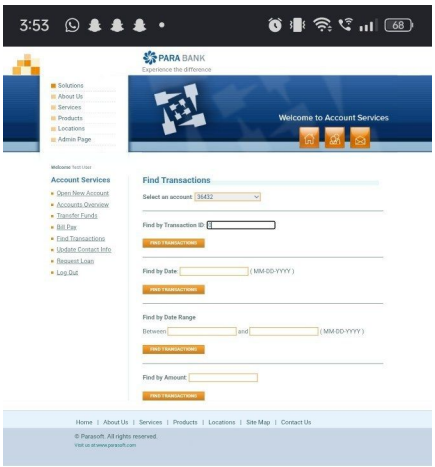

ID abc entered (3:53)

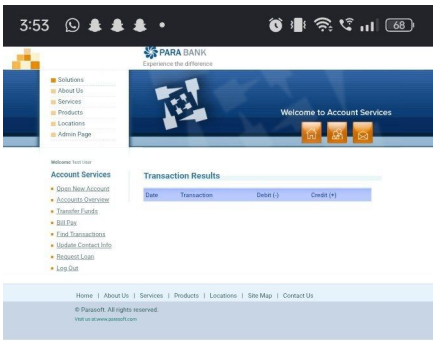

Validation message (3:53)

TC-FT-02 Find by Transaction ID that does not exist	PASS
Steps	1. Type 0 under Find by Transaction ID 2. Click Find Transactions
Test data	Transaction ID: 0
Expected	No results and no error.
Actual	The Transaction Results table was empty and there was no error.

Evidence

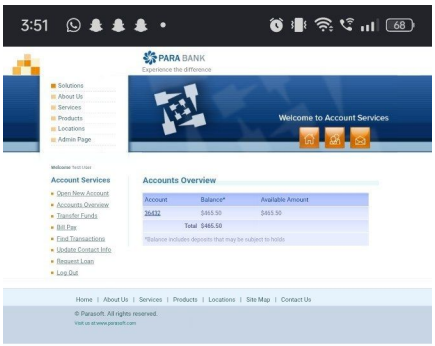

ID 0 entered (3:53)

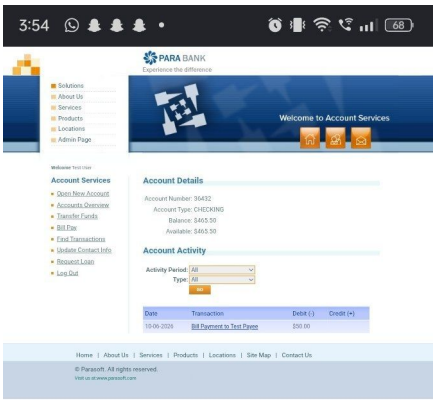

Empty results (3:53)

TC-FT-03 Find by a valid Transaction ID	PASS
Steps	1. Make a $50 bill payment from 36432 to create data 2. Open Account Details and find the transaction 3. Search by Transaction ID 44224
Test data	Transaction ID: 44224
Expected	The transaction is found.
Actual	Account 36432 (balance $465.50) lists "Bill Payment to Test Payee" as a $50.00 debit on 10-06-2026. Its details page shows Transaction ID 44224. Searching for ID 44224 returns the same payment in Transaction Results.

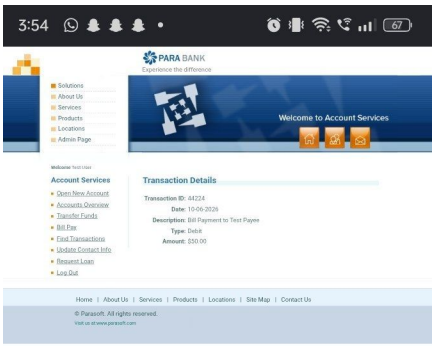

Evidence

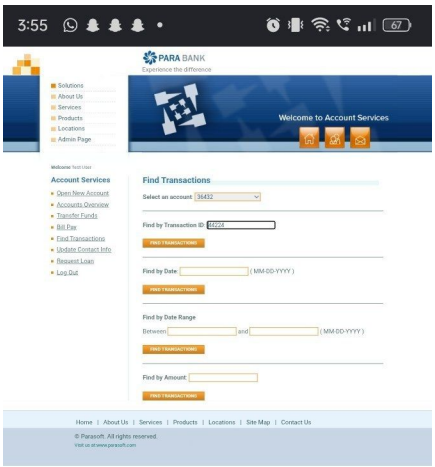

Accounts Overview, 36432 (3:51)

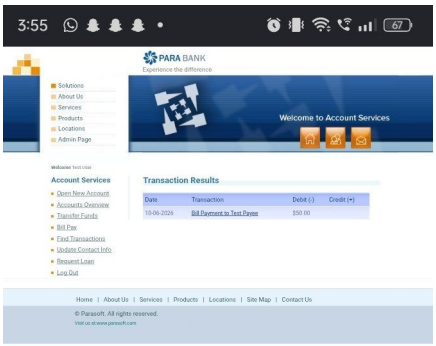

Account Details (3:54)

Transaction Details (3:54)

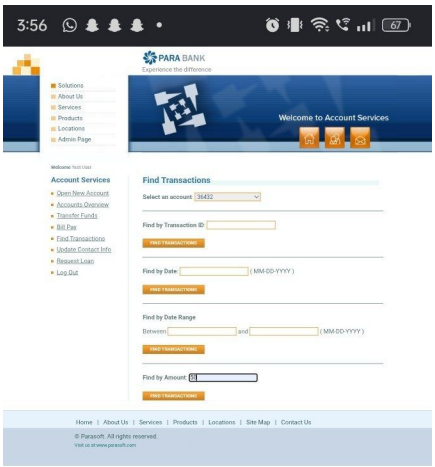

Search, ID 44224 (3:55)

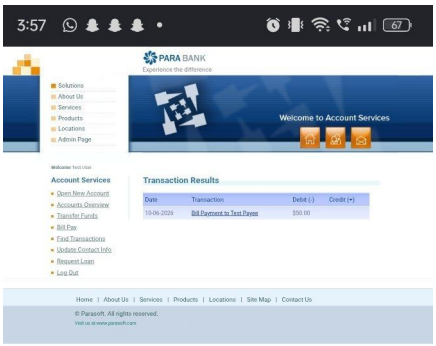

Result (3:55)

TC-FT-04 Find by a valid Amount	PASS
Steps	1. Select account 36432 2. Type 50 under Find by Amount 3. Click Find Transactions
Test data	Amount: 50
Expected	The matching transaction is listed.
Actual	The result shows 10-06-2026, Bill Payment to Test Payee, debit $50.00.

Evidence

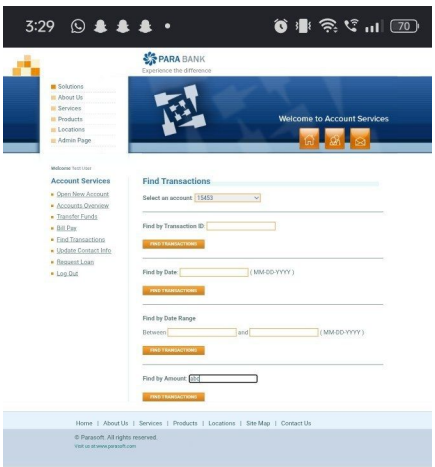

Form, 50 (3:56)

Result (3:57)

TC-FT-05 Find by Amount, non-numeric value	PASS
Steps	1. Select account 15453 2. Type "abc" under Find by Amount 3. Click Find Transactions
Test data	Amount: abc
Expected	A validation message.
Actual	"Invalid amount" showed next to the field.

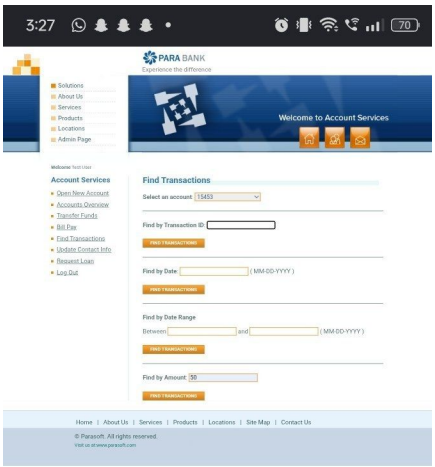

Evidence

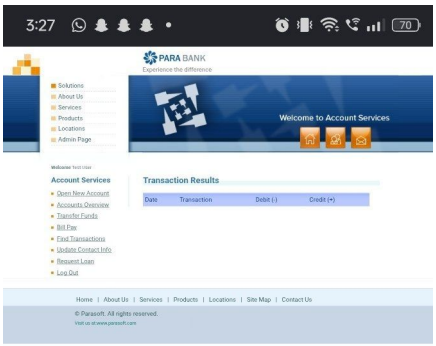

Form, abc (3:29)

TC-FT-06 Find by Amount on an account with no transactions	PASS
Steps	1. Open Find Transactions and select account 15453 ($515.50) 2. Type 50 under Find by Amount 3. Click Find Transactions
Test data	Amount: 50
Expected	No results show. A message would be better.
Actual	The Transaction Results table was empty. There was no "No transactions found" message (see observation 5.1).

Evidence

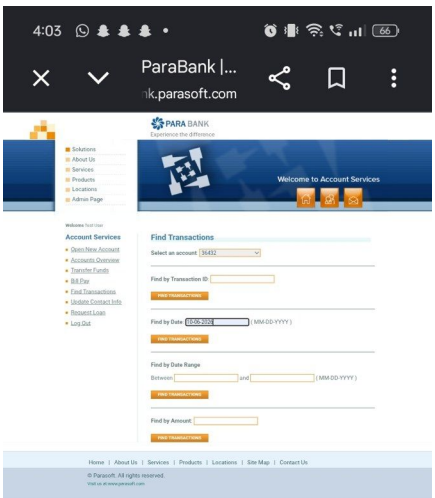

Form, 50 (3:27)

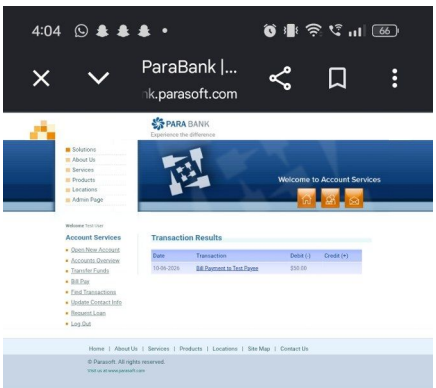

Empty results (3:27)

TC-FT-07 Find by Date, valid date	PASS
Steps	1. Select account 36432 2. Type 10-06-2026 under Find by Date 3. Click Find Transactions
Test data	Date: 10-06-2026
Expected	Transactions from that date are listed.
Actual	The $50.00 bill payment was listed.

Evidence

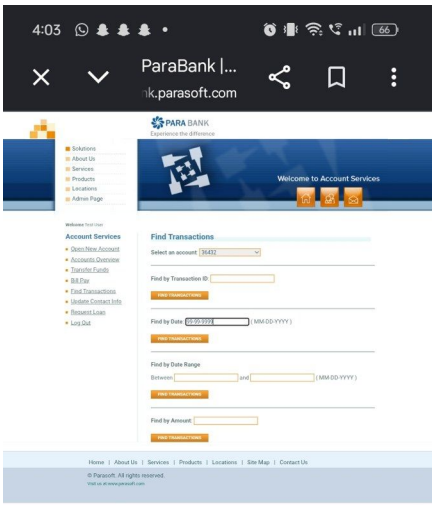

Date entered (4:03)

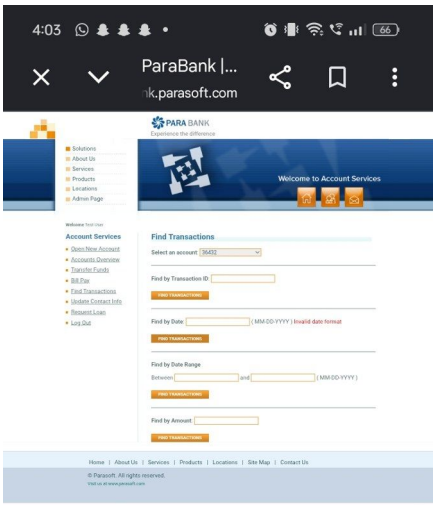

Result (4:04)

TC-FT-08 Find by Date, invalid date	PASS
Steps	1. Type 99-99-9999 under Find by Date 2. Click Find Transactions
Test data	Date: 99-99-9999
Expected	A validation message and no search.
Actual	"Invalid date format" showed next to the field.

Evidence

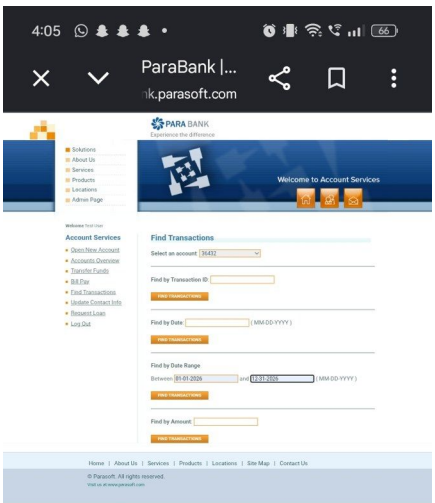

Date 99-99-9999 entered (4:03)

Validation message (4:03)

TC-FT-09 Find by Date Range, valid range	NOT VERIFIED
Steps	1. Select account 36432 2. Type 01-01-2026 and 12-31-2026 under Find by Date Range 3. Click Find Transactions
Test data	From 01-01-2026 to 12-31-2026
Expected	Transactions inside the range are listed.
Actual	I entered the range but did not save a screenshot of the result. So I could not verify this (see observation 5.3).

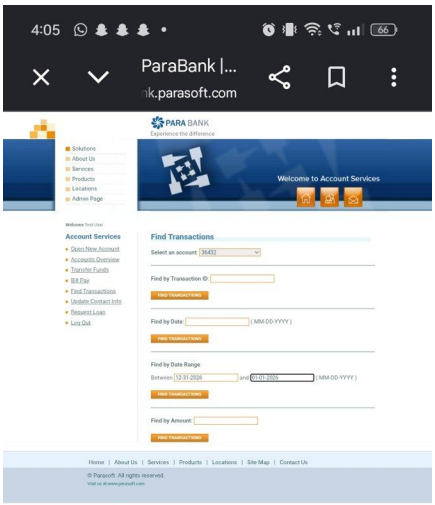

Evidence

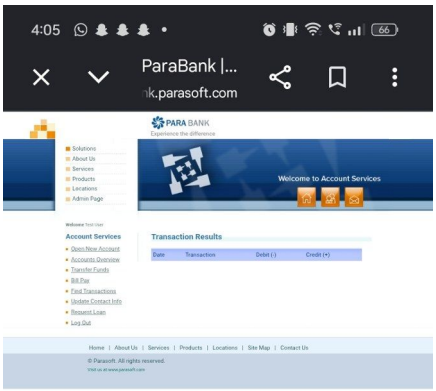

Range entered (4:05)

TC-FT-10 Find by Date Range, From date later than To date	OBSERVATION
Steps	1. Type 12-31-2026 in the first field and 01-01-2026 in the second 2. Click Find Transactions
Test data	From 12-31-2026 to 01-01-2026
Expected	A clear message that the range is wrong.
Actual	The Transaction Results table was empty and there was no message (see observation 5.2).

Evidence

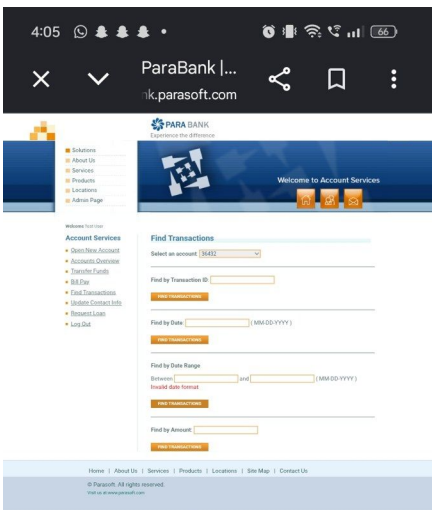

Reversed range entered (4:05)

Empty results (4:05)

TC-FT-11 Find by Date Range, both fields empty	PASS
Steps	1. Leave both range fields empty 2. Click Find Transactions
Test data	Both fields empty
Expected	A validation message.
Actual	"Invalid date format" showed under the range fields.

Evidence

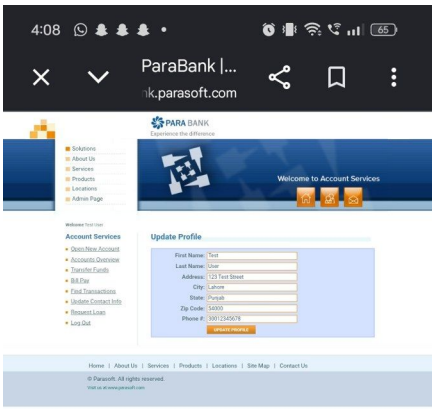

Validation message (4:05)

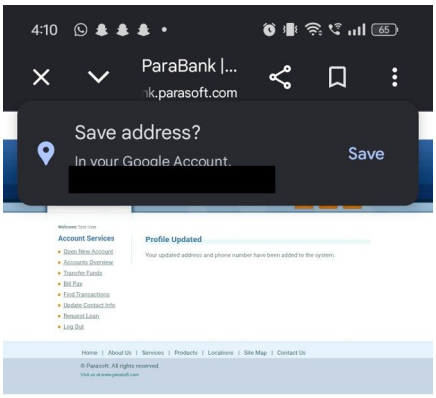

8.6 Update Contact Info

TC-UP-01 Update Contact Info with valid data	PASS
Steps	1. Open Update Contact Info 2. Fill all fields with valid data 3. Click Update Profile
Test data	Test / User / 123 Test Street / Lahore / Punjab / 54000 / 30012345678
Expected	The profile is saved and a confirmation shows.
Actual	"Profile Updated" showed with the text "Your updated address and phone number have been added to the system."

Evidence

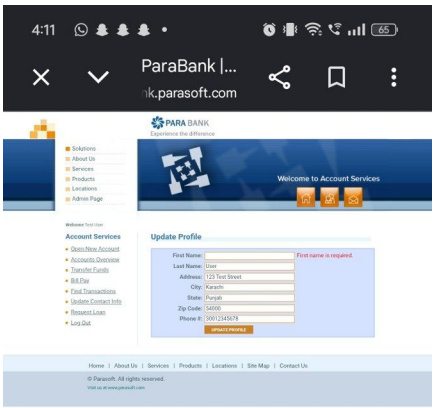

Valid data entered (4:08)

Profile Updated (4:10, browser pop-up hidden)

TC-UP-02 First Name empty	PASS
Steps	1. Clear First Name and keep the other fields valid 2. Click Update Profile
Test data	First Name: (empty)
Expected	"First name is required."
Actual	The message showed and the form was not submitted.

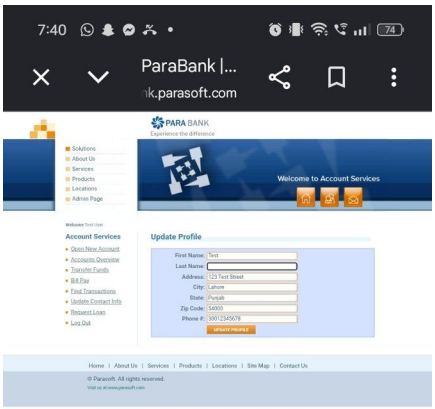

Evidence

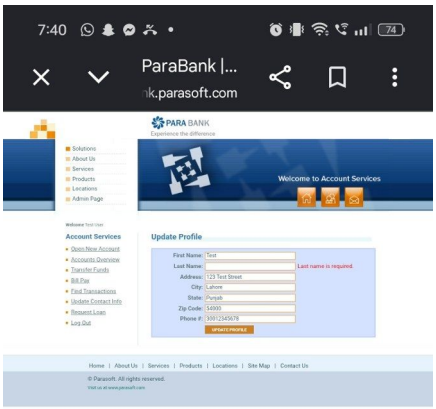

First Name empty (4:11)

TC-UP-03 Last Name empty	PASS
Steps	1. Clear Last Name 2. Click Update Profile
Test data	Last Name: (empty)
Expected	"Last name is required."
Actual	The message showed.

Evidence

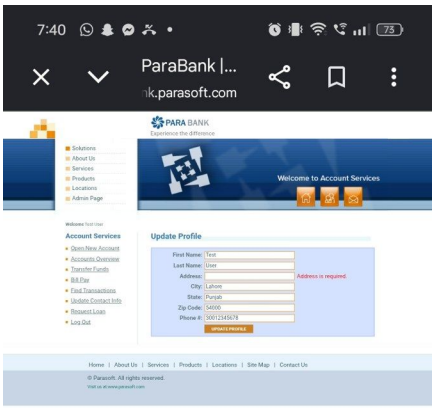

Last Name cleared (7:40)

Error message (7:40)

TC-UP-04 Address empty	PASS
Steps	1. Clear Address 2. Click Update Profile
Test data	Address: (empty)
Expected	"Address is required."
Actual	The message showed.

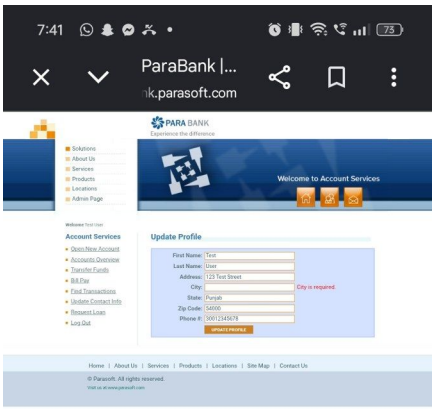

Evidence

Address empty (7:40)

TC-UP-05 City empty	PASS
Steps	1. Clear City 2. Click Update Profile
Test data	City: (empty)
Expected	"City is required."
Actual	The message showed.

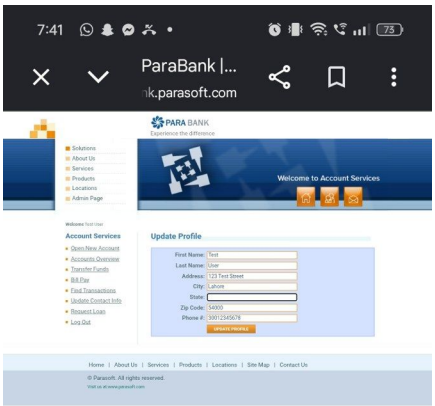

Evidence

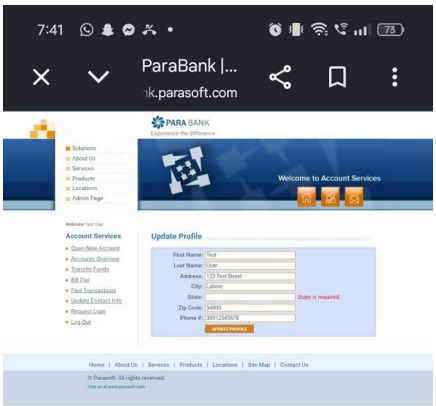

City empty (7:41)

TC-UP-06 State empty	PASS
Steps	1. Clear State 2. Click Update Profile
Test data	State: (empty)
Expected	"State is required."
Actual	The message showed.

Evidence

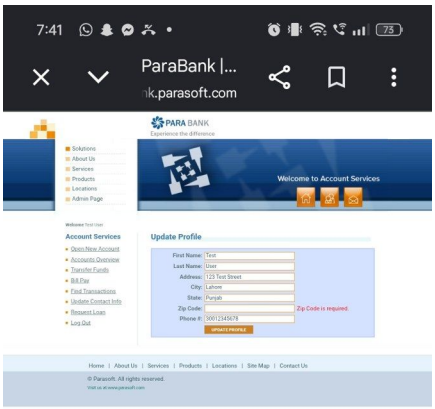

State cleared (7:41)

Error message (7:41)

TC-UP-07 Zip Code empty	PASS
Steps	1. Clear Zip Code 2. Click Update Profile
Test data	Zip Code: (empty)
Expected	"Zip Code is required."
Actual	The message showed.

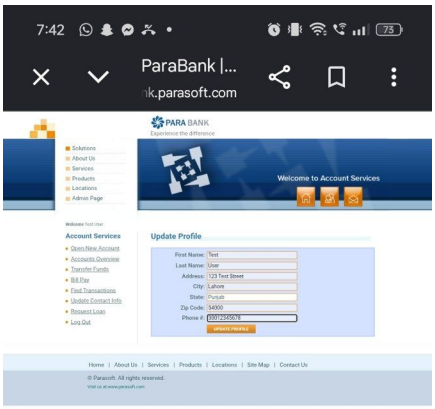

Evidence

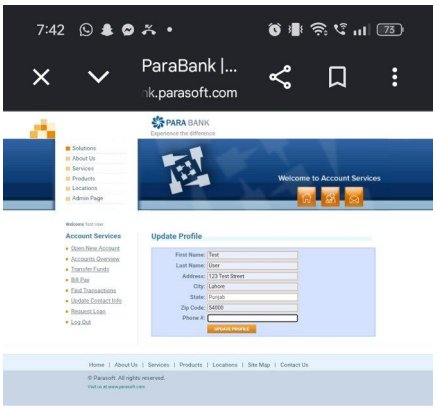

Zip Code empty (7:41)

TC-UP-08 Phone empty	FAIL
Steps	1. Fill every other field with valid data 2. Clear Phone # 3. Click Update Profile
Test data	Phone #: (empty)
Expected	A required field message like the other fields.
Actual	"Profile Updated" showed and there was no error.
Defect	BUG-13 - **Low**

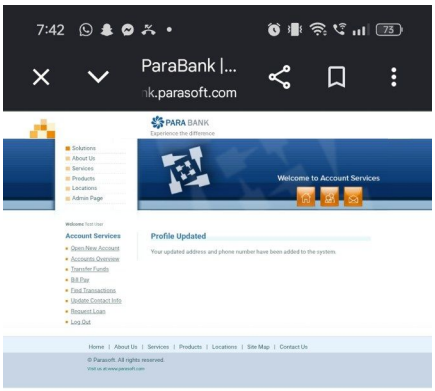

Evidence

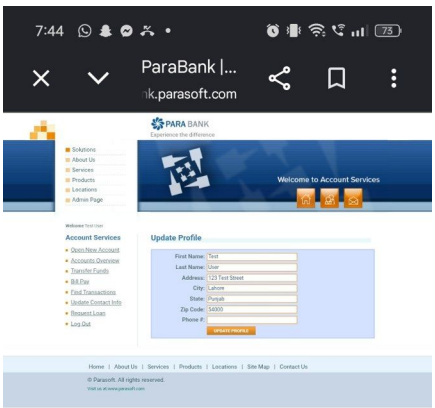

Valid data, Phone in focus (7:42)

Phone cleared (7:42)

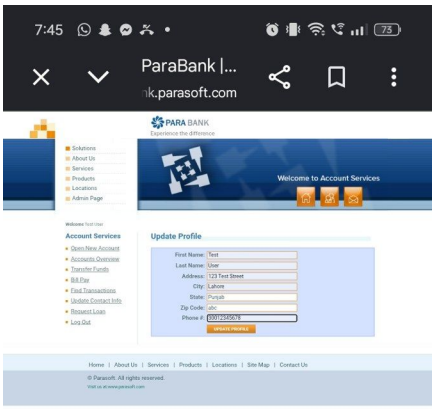

Profile Updated (7:42)

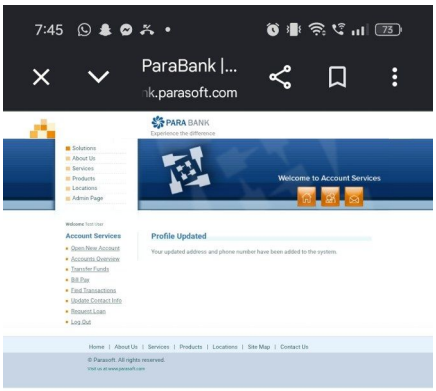

Phone empty (7:44)

TC-UP-09 Zip Code with letters	FAIL
Steps	1. Fill every field with valid data 2. Change Zip Code to abc 3. Click Update Profile
Test data	Zip Code: abc
Expected	A validation message and the profile is not saved.
