SauceDemo

Manual Testing Report

Prepared by	Aqsa Shoukat
Test date	September 2026
Platform	Android phone, mobile browser
Website	saucedemo.com (demo online shop), logged in as standard_user
Scope	4 modules and 20 test cases
Result	20 passed and 0 failed. I did not find a defect in these tests.
Evidence	Screenshots taken during testing

This report shows what I tested, what I saw on the screen and what I did not cover. It is based on my test session and the screenshots I saved.

1. What I tested

SauceDemo is a demo online shop made for testing practice. I used it on my phone to check four areas: Login, Products, Cart and Checkout. Positive tests use correct input and check that things work. Negative tests use wrong or empty input and check that the site shows an error.

What was included

- Login with wrong usernames (full name, capital letter, space, typo) and with the valid user
- The Products page and four product detail pages
- Cart: adding an item, viewing it, adding several items and removing an item
- Checkout: the form, each required field and placing an order

What I did not cover

I did not test the other demo users (locked_out_user, problem_user, performance_glitch_user, error_user and visual_user), a wrong password or empty fields on the Login page, the Enter key, the sort filter, the menu (logout and reset), the Back button, the totals on the checkout overview page, other browsers or a computer. I also did not test performance, security or accessibility.

2. How I tested

I opened each page on my phone, typed the data and compared what I saw with what I expected. I did not have a requirements document, so the expected results are my own judgement based on the page and on how a normal online shop behaves.

Environment: SauceDemo, Android phone browser, manual testing. Test date: September 2026.

3. Results at a glance

Module	Cases	Pass	Fail
Login	5	5	0
Products	5	5	0
Cart	5	5	0
Checkout	5	5	0
Total	20	20	0

Main things I noticed

- All 20 test cases passed, so I have no defect to report from this session.
- The username is case sensitive. Standard_user did not work but standard_user did.
- The error messages on the Login page and the Checkout form were clear.
- This only covers standard_user. The other demo users are the part most likely to show problems, so they are the first thing I would test next.

4. Other observations

4.1 Login details on the page: The list of usernames and the shared password are shown on the Login page. This is normal for a demo site. A real site should never show them.
4.2 Username is case sensitive: TC-003 shows that Standard_user is rejected. I did not mark it as a defect because I had no requirement.

5. Test case index

All 20 test cases are listed here. The steps and screenshots for each one are in section 7.

ID	Module	Test case	Type	Result
TC-001	Login	Login with the full name as username	Negative	**Pass**
TC-002	Login	Login with Standard user (capital S and a space)	Negative	**Pass**
TC-003	Login	Login with Standard_user (capital S)	Negative	**Pass**
TC-004	Login	Login with a typo in the username	Negative	**Pass**
TC-005	Login	Login with a valid username and password	Positive	**Pass**
TC-006	Products	Products page loads after login	Positive	**Pass**
TC-007	Products	Sauce Labs Backpack detail page	Positive	**Pass**
TC-008	Products	Sauce Labs Bike Light detail page	Positive	**Pass**
TC-009	Products	Sauce Labs Bolt T-Shirt detail page	Positive	**Pass**
TC-010	Products	Sauce Labs Fleece Jacket detail page	Positive	**Pass**
TC-011	Cart	Add an item to the cart and check the badge	Positive	**Pass**
TC-012	Cart	Cart shows the correct single item	Positive	**Pass**
TC-013	Cart	Cart shows several items	Positive	**Pass**
TC-014	Cart	Remove an item from the cart	Positive	**Pass**
TC-015	Cart	Check the cart items before checkout	Positive	**Pass**
TC-016	Checkout	Checkout information form opens	Positive	**Pass**

ID	Module	Test case	Type	Result
TC-017	Checkout	First Name is required	Negative	**Pass**
TC-018	Checkout	Last Name is required	Negative	**Pass**
TC-019	Checkout	Postal Code is required	Negative	**Pass**
TC-020	Checkout	Place an order	Positive	**Pass**

6. Conclusion and what I would test next

The normal flow worked from login to placing an order, and the error messages on the Login page and the Checkout form were clear. Because everything passed with standard_user, I do not think this shows that the site has no problems. If I continued testing I would:

- Log in with problem_user, performance_glitch_user, error_user and visual_user and compare them with standard_user
- Try locked_out_user, a wrong password and empty fields on the Login page
- Check the Enter key, the sort filter, the menu and the Back button
- Check the totals on the checkout overview page
- Repeat the main flow in another browser

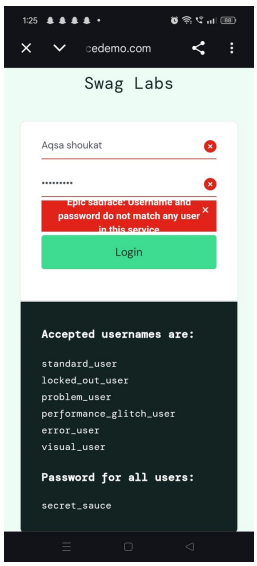

This was a practice exercise on a public demo site. It is not a real shop.

7. Detailed test cases with evidence

Every test case lists the steps, test data, expected result, actual result and the screenshots I used as proof.

TC-001 Login with the full name as username — PASS

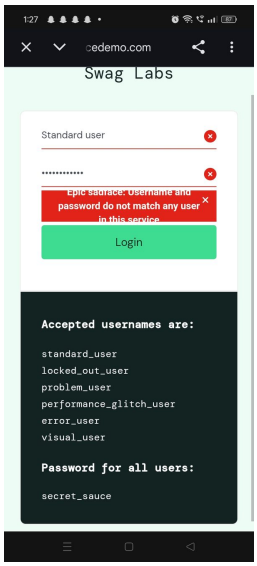

Module	Login (negative test)
Steps	1. Go to saucedemo.com 2. Type Aqsa shoukat in Username 3. Type secret_sauce in Password 4. Click Login
Test data	Username: Aqsa shoukat; password: secret_sauce
Expected	Error: Username and password do not match any user in this service
Actual	The error message showed and I was not logged in.

Error message

TC-002 Login with Standard user (capital S and a space) — PASS

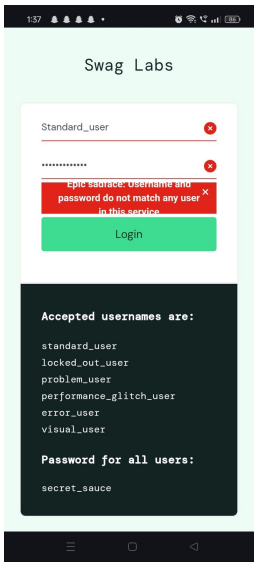

Module	Login (negative test)
Steps	1. Go to saucedemo.com 2. Type Standard user in Username 3. Type secret_sauce in Password 4. Click Login
Test data	Username: Standard user; password: secret_sauce
Expected	Error: Username and password do not match any user in this service
Actual	The error message showed and login was blocked.

Error message

TC-003 Login with Standard_user (capital S) PASS

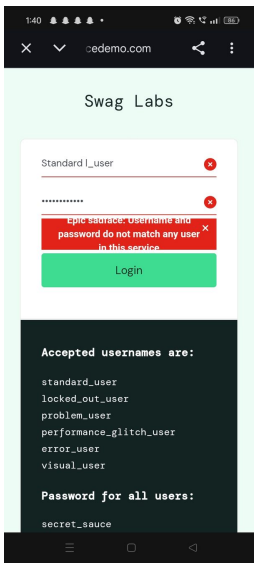

Module	Login (negative test)
Steps	1. Go to saucedemo.com 2. Type Standard_user in Username 3. Type secret_sauce in Password 4. Click Login
Test data	Username: Standard_user; password: secret_sauce
Expected	Error: Username and password do not match any user in this service
Actual	The error message showed and login was blocked. So the username is case sensitive (see observation 4.2).

Error message

TC-004 Login with a typo in the username PASS

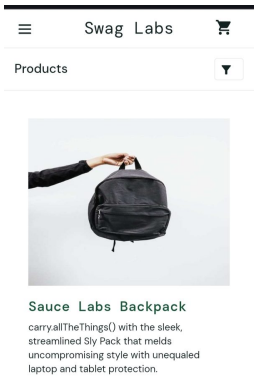

Module	Login (negative test)
Steps	1. Go to saucedemo.com 2. Type Standard l_user in Username (a space and the letter l by mistake) 3. Type secret_sauce in Password 4. Click Login
Test data	Username: Standard l_user; password: secret_sauce
Expected	Error: Username and password do not match any user in this service
Actual	The error message showed and login was blocked.

Error message

TC-005 Login with a valid username and password — PASS

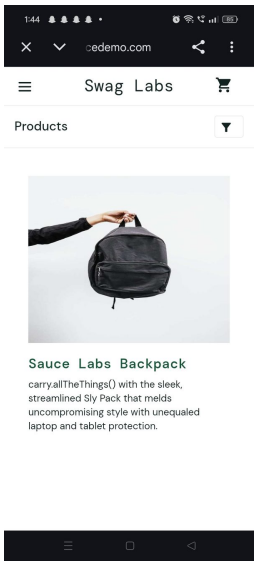

Module	Login (positive test)
Steps	1. Go to saucedemo.com 2. Type standard_user in Username 3. Type secret_sauce in Password 4. Click Login
Test data	Username: standard_user; password: secret_sauce
Expected	The Products page opens.
Actual	The Products page opened and the product list showed.

Products page

TC-006 Products page loads after login — PASS

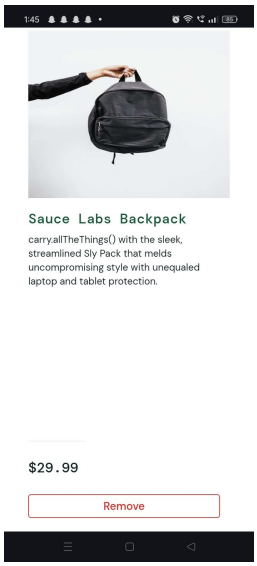

Module	Products (positive test)
Steps	1. Log in with standard_user 2. Look at the Products page
Test data	None
Expected	The products show with image, name and description.
Actual	The Products page opened with the filter button and the product list. The screenshot shows the first item, Sauce Labs Backpack.

Products page

TC-007 Sauce Labs Backpack detail page — PASS

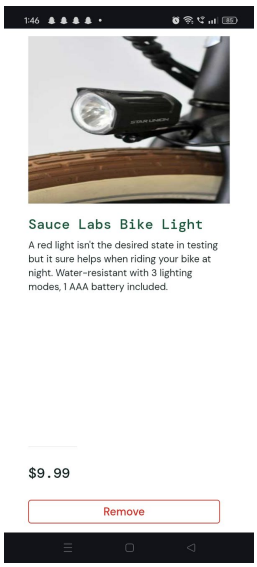

Module	Products (positive test)
Steps	1. Log in with standard_user 2. Tap Sauce Labs Backpack
Test data	None
Expected	The detail page shows image, name, description and the price $29.99.
Actual	The detail page opened with the price $29.99 and a Remove button.

Backpack detail page

TC-008 Sauce Labs Bike Light detail page — PASS

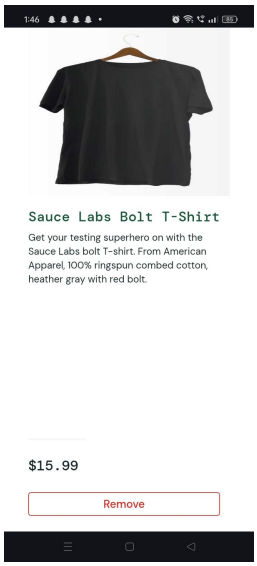

Module	Products (positive test)
Steps	1. Log in with standard_user 2. Tap Sauce Labs Bike Light
Test data	None
Expected	The detail page shows image, name, description and the price $9.99.
Actual	The detail page opened with the price $9.99 and a Remove button.

Bike Light detail page

TC-009 Sauce Labs Bolt T-Shirt detail page — PASS

Module	Products (positive test)
Steps	1. Log in with standard_user 2. Tap Sauce Labs Bolt T-Shirt
Test data	None
Expected	The detail page shows image, name, description and the price $15.99.
Actual	The detail page opened with the price $15.99 and a Remove button.

Bolt T-Shirt detail page

TC-010 Sauce Labs Fleece Jacket detail page — PASS

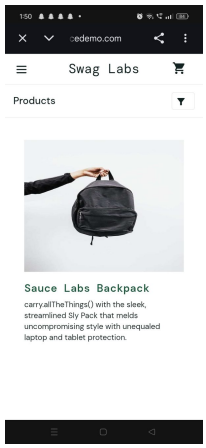

Module	Products (positive test)
Steps	1. Log in with standard_user 2. Tap Sauce Labs Fleece Jacket
Test data	None
Expected	The detail page shows image, name, description and the price $49.99.
Actual	The detail page opened with the price $49.99.

Screenshot to be added

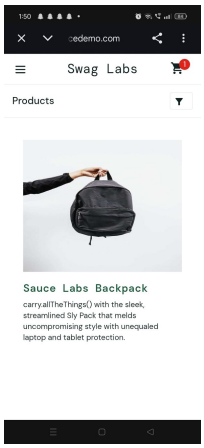

Screenshot to be added

TC-011 Add an item to the cart and check the badge — PASS

Module	Cart (positive test)
Steps	1. Log in with standard_user 2. Tap Add to cart on a product 3. Look at the cart icon
Test data	None
Expected	The cart icon shows a number for the items added.
Actual	A red badge with 1 showed on the cart icon after I added one item.

Before adding: no badge

After adding: badge 1

TC-012 Cart shows the correct single item — PASS

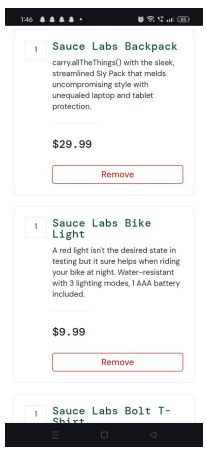

Module	Cart (positive test)
Steps	1. Add Sauce Labs Backpack to the cart 2. Tap the cart icon 3. Check what is in the cart
Test data	None
Expected	The cart shows the Backpack with the price $29.99 and a Remove button.
Actual	The cart showed the Backpack with the price $29.99 and a Remove button.

Screenshot to be added

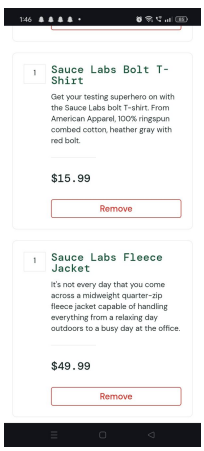

Screenshot to be added

TC-013 Cart shows several items — PASS

Module	Cart (positive test)
Steps	1. Add more than one product to the cart 2. Open the cart 3. Check all the items
Test data	None
Expected	All added items show with the correct names and prices.
Actual	The cart showed the Backpack ($29.99), the Bike Light ($9.99), the Bolt T-Shirt ($15.99) and the Fleece Jacket ($49.99).

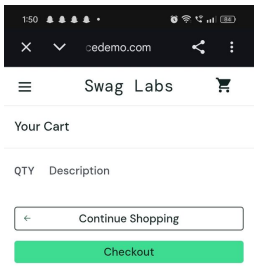

Top of the cart

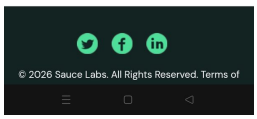

Bottom of the cart

TC-014 Remove an item from the cart — PASS

Module	Cart (positive test)
Steps	1. Add an item to the cart 2. Open the cart 3. Tap Remove 4. Look at the cart
Test data	None
Expected	The item is removed and the cart is empty.
Actual	The item was removed and the cart was empty. The Continue Shopping and Checkout buttons were still there.

Empty cart

TC-015 Check the cart items before checkout — PASS

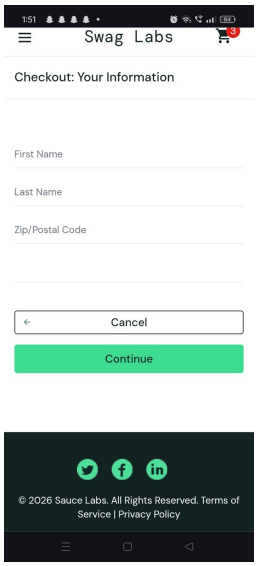

Module	Cart (positive test)
Steps	1. Add a few items to the cart 2. Open the cart before checkout 3. Check the items
Test data	None
Expected	All items show with their prices before checkout.
Actual	The cart showed all the selected items before checkout.

Screenshot to be added

Screenshot to be added

TC-016 Checkout information form opens — PASS

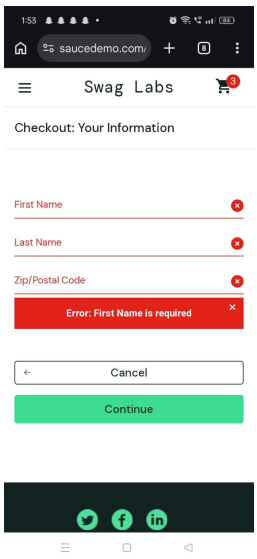

Module	Checkout (positive test)
Steps	1. Add items to the cart 2. Tap Checkout 3. Look at the form
Test data	None
Expected	The form shows First Name, Last Name and Zip/Postal Code.
Actual	The Checkout: Your Information page opened with all three fields.

Checkout form

TC-017 First Name is required — PASS

Module	Checkout (negative test)
Steps	1. Open the checkout form 2. Leave First Name, Last Name and Zip/Postal Code empty 3. Tap Continue
Test data	All three fields empty
Expected	An error says First Name is required.
Actual	The error "First Name is required" showed and the three fields turned red.

Error message

TC-018 Last Name is required — PASS

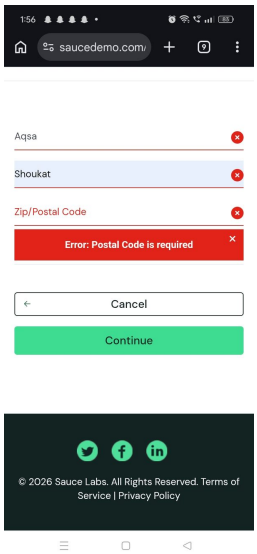

Module	Checkout (negative test)
Steps	1. Open the checkout form 2. Fill First Name and leave Last Name empty 3. Tap Continue
Test data	First Name filled; Last Name empty
Expected	An error says Last Name is required.
Actual	The error "Last Name is required" showed.

Screenshot to be added

Screenshot to be added

TC-019 Postal Code is required — PASS

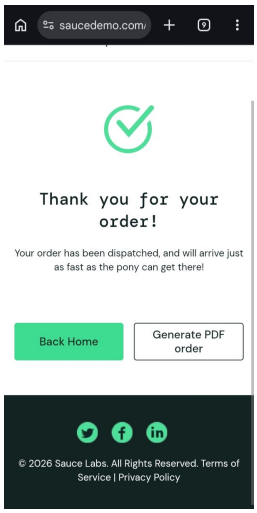

Module	Checkout (negative test)
Steps	1. Fill First Name and Last Name 2. Leave Zip/Postal Code empty 3. Tap Continue
Test data	First Name and Last Name filled; Zip/Postal Code empty
Expected	An error says Postal Code is required.
Actual	The error "Postal Code is required" showed.

Error message

TC-020 Place an order — PASS

Module	Checkout (positive test)
Steps	1. Fill all the checkout fields 2. Tap Continue 3. Tap Finish
Test data	All fields filled
Expected	The confirmation page says Thank you for your order!
Actual	The order was placed and the Thank You page opened.

Order confirmation

Prepared by Aqsa Shoukat as part of my manual QA portfolio. Website tested: saucedemo.com. Manual functional testing, September 2026.
